Benchmark your ESG risk exposure with the RepRisk Rating

The cornerstone of the Benchmarking Brief is the RepRisk Rating – a proprietary risk metric, ranging from AAA to D, that captures and quantifies a company’s risk exposure related to ESG Issues. It combines a company’s own ESG risk exposure with the ESG risk exposure of the countries and the sectors in which the company has been exposed to risks.

The RepRisk Rating facilitates corporate benchmarking and ESG integration. Based on RepRisk’s strict, rules-based methodology, the Rating is updated daily for all companies in the RepRisk ESG Risk Platform.
