

RepRisk for Supply Chain

Your daily-updated supplier risk assessment and screening tool

Use RepRisk to identify, assess, and monitor ESG and business conduct risks in your supply chain

- Assess the ESG and business conduct risks of suppliers to support supplier selection and onboarding procedures, and better deploy audit resources
- Monitor your suppliers on a daily basis to check supplier compliance with internal policies, your Supplier Code of Conduct, and international standards such as the UN Global Compact and the UN Guiding Principles for Human Rights
- Classify and map your supplier portfolio based on country and sector ESG risk metrics
- Evaluate the ESG risks related to supplier facilities ("projects") such as ships, ports, factories, and plantations

RepRisk solutions help reduce blind spots and shed light on human rights, labor, environmental, and corruption risks

RepRisk ESG Risk Platform

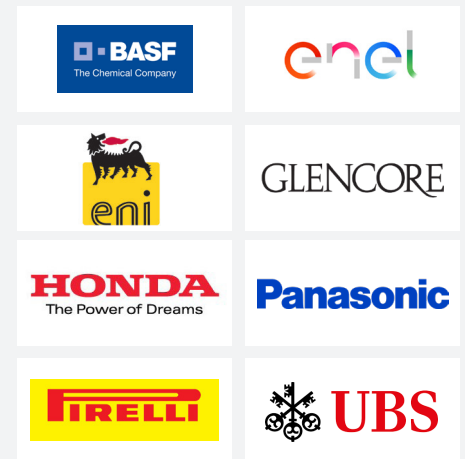

- Stand-alone Software as a Service (SaaS) with easy online access at any time, from anywhere
- In-depth risk research on companies, projects, sectors, and countries with the world's largest due diligence database on ESG and business conduct risks
- Ongoing risk monitoring via customizable Watchlists and an email Alert Service

RepRisk Supplier Monitoring Brief

- PDF report that screens your suppliers to identify those that are most exposed to ESG and business conduct risks
- Supports supplier monitoring, engagement, and risk management processes, including compliance checks
- Customizable to your supplier universe, ESG criteria, and frequency of delivery

RepRisk works with the world's leading multinationals

Why RepRisk?

- **Exclusive focus on risks** from an outside-in perspective – looking beyond policies to assess a company's actual on-the-ground performance
- **Daily-updated data**, providing timely and actionable information for decision-making
- **Universal coverage**, including listed and unlisted companies of all sizes, sectors, and countries, including emerging and frontier markets
- **Coverage of supplier facilities ("projects")** such as ships, ports, factories, and plantations
- **Leveraging big data** via a powerful combination of artificial intelligence and human analysis in 16 languages to support early identification of risks at the local level

RepRisk enables compliance with internal policies and international standards
